AAE Parents/Guardians,

The beginning of the year is truly an exciting time for both families and our AAE staff. Students and staff embrace the opportunity to start afresh and continually improve their personal practice in the upcoming year. It is with that same vigor in mind that I write to you this summer.

I am excited to complete my first whole year as your Secondary Principal. We have spent a significant amount of time laying the groundwork for a great year. We have selected our new Academic Leadership Team for the next school year. This team consists of Classroom Teachers, Specialists and Administration and will be the main vehicle in which school wide decisions are made for the well being of our school. In addition, a Tech Task Force has been assembled; we have gathered data on how we as a school are using our Mac products. We will be visiting Apple Headquarters in Cupertino this summer and analyzing how we can be even more effective in the future.

Mrs. Andreasen and I, on behalf of our Administrative Team welcome our very own, BreAnna Beare as the new Dean of Students. She has a clear track record of effectiveness, experience in the discipline office and will continue to administer AAE school discipline in a firm, fair and consistent manner. Our AAE students are definitely in good hands.

Lastly, I look forward with eager expectation to see the future accomplishments of our Ambassadors, AFJROTC Cadets, AAE Athletics Teams, ASB, SLT and National Honors Students. Though this past year will be difficult to surpass, I believe that our new crop of leaders are more than able and driven to succeed. The upcoming year is going to be great.

Enjoy the balance of your summer,

Wes Kanawyer
